

Video Lesson: Words and Phrases

What to do?

Watch the video. The video shows many images. It seems like the images are random. Each image is connected to another image by a word, or a few words. Find the words that connect each image.

I think there are 63 words and phrases that connect each scene together. Can you find the 63 words and/or phrases that connect each group of images?

Here is a hint. In total (I think) there are nine key verbs and/or nouns used in this video.
