

30. Which One is Different?

 15-25 minutes	 Intermediate +
 Fluency, creative thinking	
 Worksheets 4-3 and 4-4	

IDEA

Which One is Different? (sometimes called *Odd One Out*) is a staple in the ESL world because it generates heaps of meaningful output. The real magic of this activity takes place after teachers nudge students to describe creative answers, not just the obvious ones.

SET UP

Photocopy Worksheets 4-3 a/b for students (Worksheet 4-4 a/b for higher level students).

FLOW

Explain this is an exercise to build speaking, listening and thinking skills. Point out that each paper has a table with rows. Each row has four words.

- Student A reads one row of four words.
- Student B listens.
- Student B chooses one word which is different and explains why. Any answer is possible as long as it is logical (i.e. students can't say, "Cats are different because I don't cats but I like the other animals.")
- Students rotate asking and answering questions until complete.

Stress there are no right or wrong answers, just well reasoned answers and illogical answers. Encourage partners to offer alternate answers.

Discourage students from reading each other's paper in order to build listening and thinking skills.

TIP

Some creative answers might be based grammatical or lexical points. While monitoring student activity, offer hints by explaining some of these concepts:

1. syllables
2. homophones
3. antonyms
4. synonyms
5. collocations
6. chunks
7. final sounds
8. irregular verbs
9. adjectives
10. nouns
11. verbs

POSSIBLE ANSWERS

A-1

1. Elephant is not a pet. The others are house pets.
2. Saturday has three syllables. The other words have two syllables.
3. Uncle is a male. The others are female.
