

## **Patient B. R.**

B. R. is kind and gentle. She does not talk much. She is friendly. She looks good and is independent. She asks about the nurse's family and sleeps well at night.

## **Patient S. T.**

S. T. is sometimes angry and likes to complain. He is does not look good. He needs help walking, but he can feed himself. He sleeps, but not a lot.

## **Patient J. T.**

J. T. needs lots of attention. He cries a lot. He can't walk or talk. He needs someone to help him clean his clothes because he can't go to the bathroom by himself. He is almost bald. He wakes up a lot at night.
