

How to Analyze a Pig Picture

Pig pictures reveal a lot about a person's character. Here is how to understand your partner's picture.

If the pig is ...

- near the top of the paper, you are positive and optimistic
- near the middle, you are realistic
- near the bottom, you are pessimistic
- facing left, you believe in tradition, are friendly and remember dates easily
- facing right, you are innovative and active
- facing the front, you are direct, enjoy discussions
- with many details, you are analytical, cautious and distrustful
- with few details, you are emotional and like to take risks
- with fewer than 4 legs, you are insecure or are living in a period change
- with 4 legs showing, you are secure and stubborn
- The size of the ears indicates how good a listener you are — the bigger the better!
- The length of the tail shows the quality of your sex life — the longer the better.
